mains to Be Found Out.

When milk is examined with the microscope it is found that it is composed largely of butter globules as well as the various forms of casein. An analysis of milk shows that chemically it contains water, fat, casein, sugar, phosphate of lime, phosphate of magnesia, phosphate of iron, chloride of potassium, chloride of sodium, and some soda combined with cream. The milk sugar forms a very considerable part of the whole and is some times put at as much as four per cent. Water constitutes from 80 to 87 per cent. of the whole weight. The kind of milk furnished is controlled somewhat by the age of the animal furnishing it, though the richness is due very largely to the breeding of the cow; that is, some cows produce offspring that give rich milk rather than milk of inferior quality. The various salts that enter into milk probably constitute more of a factor in its digestibility than we now know, says Farmers' Review. In fact, there is much about milk that has never been searched out by scientists. For instance, what value has the phosphate of iron, which is present in milk only to the extent thing sold well.

Mrs. John Smith of seven one-thousandths of one per cent.? It is probable that each of these elements plays a considerable role. There is the chloride of sodium (salt). It is present in normal milk to the extent of 24 one-thousandths of one per cent., and yet it seems to be quite essential. Cows have been deprived of salt to the extent of greatly reducing their milk flow, but just how this was connected with the sait we

There are many things in milk that are worth finding out. Some day we may learn that the food of cows must have certain things in them that we now deem of no particular nutritive reached the stage where it yields data to settle all the questions that seem so difficult. One of the great things as yet little studied is the sugar in milk, which often exceeds the fat content. Is there a close relation between the fat and the sugar? A study of the two in conjunction might yield some results of great commercial value.

New Catechism for Schools

Some three years ago, by invitation of the Church of Scotland, representatives of the other Reformed churches met with delegates from that body to consider the matter of religious instruction in the public schools of Scotland. A subcommittee appointed by the conference to prepare a simple catechism for use in the schools where children of the various churches are taught together, has now reported. Though the revised book contains nearly as many questions and answers as the historic Shorter Catechism, it tive bronchal membranes, No opium has been greatly simplified in language, and statements bearing upon doctrinal differences between the deinations have been omitted. THE

Whitaker Automatic Gate.

Patented August 22, 1905

____ BY ____

NATHANIEL WHITAKER

of Richmond, Madison County, Kentucky.

Why the Whitaker Gate is the best.

1st it is made of first class material. 2nd. It is stock proof.

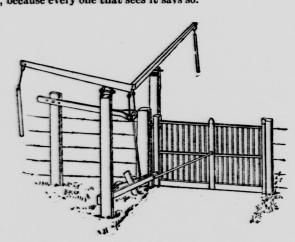

3rd, It has no dead center and will not stop half open when others give

4th, It has no latch to get out of order. 5th, It is a perfect lock when closed.

6th. It has less lever motion than any other Gate.

7th, It will work on any kind of Ground in a curved road and to any

8th, It is easier to operate than any other. 9th, because every one that sees it says so.

Read what a few men of the county have to say who are using this gate.

Paint Lick, Ky., August 14th, 1906. I have one of the Whitaker Automatic Gates that I have used for about seven months, it has not been out of repair in the least, and has not given me

one moments trouble so far, and can't see how it will. I like it splendid. Respectfully, J. C. Rucker.

After using one of the Whitaker Automatic Gates, can say that it gives perfect satisfaction. I consider it the best gate I have ever seen. Would not do without mine for double the cost of it. Yours truly,

Paint Lick, Ky.

I have owned one of the Whitaker Automatic Gates for some time. I has given persect satisfaction and swings so nicely and works so easy that any child can operate it. My little four year old boy has no trouble in using this Very respectfully, S. D. Cochran.

I was the first in this county to purchase one of these gates. I am well

leased with it and would not do without it one year for the cost of the gate I advise every one that needs a good gate to buy one, they are all right.

The Strenuous Life

Results in Stomach Troubles and Physical Breakdown.

The strenuous life of modern times forces people to rush through their meals hastily, hurrying from the table in the mad rush after the al-

mighty dollar.

The result is incomplete digestion, inflammation of the walls of the stomach, and lack of secretion of the gastric juices, ending in chronic stomach trouble and nervous breakdown.

How much better it would be to

eat more slowly, cure the stomach trouble with Mi-o-na, and soon regain perfect health. The headaches, sleepessness, nervous troubles, pain after eating, specks before the eyes. backaches, melancholy and gloomy fore-boding would be soon overcome and perfect health and strength would be

restored. Proper treatment of the weakened digestive system with Mi-o-na will cure every case of stomach trouble. The results of this treatment are so astonishing and so pronounced, that those who have tried it never fail to

ppreciate its value as a healing So reliable is Mi-o-na in curing ali orms of stomach weakness and troutlese that we give a signed guar-antee that the remedy will cost noth-ing unless it cures. Each box of Mi-o-na sells for 50 cents, and is invaluable to anyone who suffers with indigestion, nervousness or weak

DON'T DOSE THE STOMACH

Cure Catarrh by Breathing Hyomei.
—Sold Under Guarantee.

There is one treatment for nasal catarrh which is based upon common sense, and at the same time, is thoroughly scientific. Hyomei is not a cure-all: it is a specific for the cure of catarrhal trou-bles. Breathed through the neat pocket inhaler that comes with every outfit, the aromatic healing of Hyc-

mei penetrates to the most remote part of the nose, throat, and lungs, ealing all inflammation and killing the catarrhal germ wherever present. So successful has Hyomei been in the cure of catarrh, that we sell it under a guarantee that it will cost nothing unless it gives satisfaction. The complete Hyomei outfit sells for 31, and consists of an inhaler that can be carried in the vest-pocket, a medicine dropper, and a bottle of Hyomei. The inhaler lasts a lifetime, and if more Hyomei is needed, extra bottles can be obtained for 50

It is the most economical of all emedies advertised for the cure of catarrh, and is the only one that losing, applying the medication and healing where the disease germs are

present. Do not dose the stomach to cure asal catarrh; breathe Hyomei, knowng that if this treatment does not

ure, it will cost you nothing. R. E. McRoberts, Druggist.

shown us regarding this case conclusively prove that every taint of this terrible dis-ease was permanently cleared away by the nderful D. D. D. Prescription. R. E. McRoberts.
